About Us

“The FIRM“

We are a group professionally certified and licensed educators dedicated to providing a continuous service to all public schools entities that have been identified with a lack of qualified staff and to continue providing services for children identified with special needs. Our target goal is to provide professional services for all charter, public, private, and federal funded government schools and to special needs children in the public schools and local districts.

We Follow Our Obligation to Quality Education

Our services differ from competitors' because we are committed to providing services as mandated by federal law to fulfill our responsibility to children as educators. The new federal law that was enacted by President Bush, called the No Child Left Behind Act, entitles all children the right to an education and provides some very important supportive agencies that are dedicated to our educational struggle.
